

**Team:** Alex Goodwin  
Lucy Wilkinson  
Dmytro Ryzhkov  
Matt Uhlar

**Project Title:** Athlete Tracker

**Project Summary:** A program that allows brands to internally track products sent to sponsored athletes.

### Project Requirements

#### Business Requirements

ID	Requirement	User	Priority
BR-01	Need a system to track and report products sent to sponsored athletes	All	Critical
BR-02	Admins should be able to add new products	Admin	High
BR-03	Admins should be able to edit existing products	Admin	Medium
BR-04	Admins should be able to delete existing products	Admin	Medium
BR-05	Admins should be able to add new athletes	Admin	High
BR-06	Admins should be able to edit existing athletes	Admin	High
BR-07	Admins should be able to delete existing athletes	Admin	Medium
BR-08	Admins should be to view a list of shipments, their value, and when they were sent to a specified athlete	Admin	Medium
BR-09	Athletes should be to view a list of shipments, their value, and when they were sent to them	Athlete	Low
BR-10	Warehouse workers should be able to view a list of shipments,	Warehouse worker	Medium

	their value, and when they were sent to a specified athlete		
BR-11	Admins should be able to log a new shipment entry which specifies what product(s) were sent when and to which athlete	Admin	High
BR-12	Athletes should not be able to view other athletes' information	Athlete	High
BR-13	All data should be loaded/displayed in real-time to prevent concurrent editing issues	All	Very low / nice-to-have

#### User Requirements

ID	Requirement	Topic Area	User	Priority
UR-01	Admin should be able to view the total value in product sent to a specified athlete	Dashboard	Admin	Medium
UR-02	Athletes should be able to view the total value in product they have received	Dashboard	Athlete	Medium
UR-03	Users should be able to log in	Log-in	Athlete	Critical
UR-06	All users should have a portal to access and modify information	Dashboard	All	High
UR-07	Admins should be able to search for an athlete by name	Dashboard	Admin	Nice-to-have
UR-08	Warehouse workers should be able to search for an athlete by name	Dashboard	Warehouse worker	Nice-to-have
UR-09	Warehouse workers should be able to view a list of shipments needing to be shipped	Dashboard	Warehouse worker	High
UR-10	Warehouse workers should be able to update a shipment's status (pending, shipped, etc)	Dashboard	Warehouse worker	High
UR-11	Users can retrieve lost passwords after verifying identity	Authentication	All	Nice-to-have

### Functional Requirements

ID	Requirement	Topic Area	User	Priority
FR-01	System can calculate the total value in product sent to an Athlete over a specified time period	Metrics	System	Nice-to-have
FR-02	Users can log-in to a portal session using a set username and password	Authentication	All	High
FR-03	New products can be added to the database	Database	Admin	High
FR-04	Existing products can be edited	Database	Admin	Medium
FR-05	New athletes can be added to the database	Database	Admin	High
FR-06	New athletes can be given access to the system	Authentication	Athlete	High
FR-07	Athlete information can be edited	Database	Athlete / Admin	High
FR-08	System can email users to reset password	Authentication	All	Nice-to-have (stretch)

### Non-Functional Requirements

ID	Requirement	Topic Area	User	Priority
NF-01	Users should not be able to access another user's data, including authentication data	Security / Privacy	All	High
NF-02	The portal should be accessible from any operating system	Portability	All	High
NF-03	The portal should be accessible from any size	Portability	All	Medium

	device (responsive design)			
NF-04	Portal should be easy to use	Accessibility	All	High
NF-05	User passwords should be securely stored and accessed (salted & hashed)	Security	All	Critical

## Use Cases

### Actors

- Admin
- Athlete
- Warehouse Worker

## Use Case Overview

## Use Case Documents

<b>Use Case ID</b>	UC-01
<b>Use Case Name</b>	Log In
<b>Description</b>	Admins, athletes, and warehouse workers can log in to the system to access any information available to them
<b>Actors</b>	Admin, athlete, warehouse worker
<b>Pre-Conditions</b>	The actor is not already logged in and the profile already exists and is active.
<b>Post-Conditions</b>	If successful, the actor is now logged in.

<b>Frequency of Use</b>	Multiple times daily - every time the tracker is used		
<b>Flow of Events</b>		<b>Actor Action</b>	<b>System Response</b>
	1.	System prompts user to enter username & password	
	2.	Enter username & password	
	3.	Click submit	Validate username & password with information in database, begins user session
<b>Variations</b>	2. If username and/or password are invalid, system displays an error message. Actor can choose to return to beginning of flow or cancel login.		
<b>Exceptions</b>	None		
<b>Developer Notes</b>	Be sure passwords are salted and cryptographically hashed for security.		

<b>Use Case ID</b>	UC-02		
<b>Use Case Name</b>	Create shipment ticket		
<b>Description</b>	Admin can create a shipment ticket and send it to warehouse worker		
<b>Actors</b>	Admins		
<b>Pre-Conditions</b>	Athlete to receive products exists		
<b>Post-Conditions</b>	Order ticket for specific product created and sent to warehouse worker		
<b>Frequency of Use</b>	Whenever an athlete needs to be sent new products - multiple times per week when considering a large number of athletes		
<b>Flow of Events</b>		<b>Actor Action</b>	<b>System Response</b>
	1.	Log into system	
	2.	Navigate to "create orders/tickets" page	Display all products

	3.	Select all products that will be attached to the newly created ticket, select "Create Shipment"	Popup modal shows summary of order ticket
	4.	Admin confirms they wish to create ticket	Adds order to shipment table. Alerts admin ticket has been sent to warehouse
<b>Variations</b>	None		
<b>Exceptions</b>	None		
<b>Developer Notes</b>	None		

<b>Use Case ID</b>	UC-03		
<b>Use Case Name</b>	Cancel shipment		
<b>Description</b>	Admin can cancel a shipment ticket after is has been created		
<b>Actors</b>	Admins		
<b>Pre-Conditions</b>	A shipment ticket has been created and not yet fulfilled		
<b>Post-Conditions</b>	Shipment marked as cancelled in database		
<b>Frequency of Use</b>	Whenever a shipment is cancelled by admin		
<b>Flow of Events</b>		<b>Actor Action</b>	<b>System Response</b>
	1.	Log into system	
	2.	Navigate to "shipments" page	Display page that lists all shipments, specifying which have not yet been fulfilled
	3.	Navigate to needed shipment, click edit button	Popup window with edit options opens
	4.	Change status to cancelled	Updates shipment status field to cancelled within database. Alerts admin shipment has been cancelled.
<b>Variations</b>	None		

<b>Exceptions</b>	None
<b>Developer Notes</b>	None

<b>Use Case ID</b>	UC-04		
<b>Use Case Name</b>	Edit own profile		
<b>Description</b>	Actor can edit fields associated with their profile		
<b>Actors</b>	Admin, Athlete, Warehouse Worker		
<b>Pre-Conditions</b>	Actor must have account, and must be logged in to that account		
<b>Post-Conditions</b>	Actors information they wish to edit will be updated		
<b>Frequency of Use</b>	Whenever the actor needs to make a change to their profile		
<b>Flow of Events</b>		<b>Actor Action</b>	<b>System Response</b>
	1.	Login to system	Logs in, shows the actor's profile
	2.	Click edit button	Opens pop-up edit window
	3.	Edit needed fields	
	4.	Click "save changes" button	Updates user profile info in database, closes pop-up, displays updated information on profile page
<b>Variations</b>	None		
<b>Exceptions</b>	None		
<b>Developer Notes</b>	None		

<b>Use Case ID</b>	UC-05		
<b>Use Case Name</b>	View own profile		
<b>Description</b>	Actor can view information stored on their profile		
<b>Actors</b>	Admins, Athletes, Warehouse Workers		

<b>Pre-Conditions</b>	Actor must have account, and must be logged in to that account		
<b>Post-Conditions</b>	Actor has viewed account information		
<b>Frequency of Use</b>	Whenever an actor wishes to review or verify information on their profile - daily.		
<b>Flow of Events</b>		<b>Actor Action</b>	<b>System Response</b>
	1.	Log in to system	Logs in
	2.	Click on "View Profile"	Displays a list of the user's information, including their name, address, and shipments that they have sent or received
<b>Variations</b>	None		
<b>Exceptions</b>	None		
<b>Developer Notes</b>	None		

<b>Use Case ID</b>	UC-06		
<b>Use Case Name</b>	Edit Shipment		
<b>Description</b>	Warehouse worker or admin edits a shipment, either to alter the information or to mark it as shipped.		
<b>Actors</b>	Warehouse worker, Admin		
<b>Pre-Conditions</b>	Shipment ticket has been created and shipment has not yet been fulfilled.		
<b>Post-Conditions</b>	Shipment ticket altered.		
<b>Frequency of Use</b>	Daily - at least every time a shipment is sent		
<b>Flow of Events</b>		<b>Actor Action</b>	<b>System Response</b>
	1.	Navigate to "Shipments" page	Display shipments
	2.	Click edit button for corresponding shipment	Opens pop-up window with editable fields
	3.	Update necessary fields	None
	4.	Click "save changes"	Update field(s) in

			database
<b>Variations</b>	3. If marking as shipped, worker first prepares and ships physical order		
<b>Exceptions</b>	None		
<b>Developer Notes</b>	None		

<b>Use Case ID</b>	UC-07		
<b>Use Case Name</b>	Create Profile		
<b>Description</b>	Admin can create a user (profile) for user types Admin, Athlete, and Warehouse Worker		
<b>Actors</b>	Admins		
<b>Pre-Conditions</b>	The profile being created doesn't already exist.		
<b>Post-Conditions</b>	User and profile are created, information stored in DB, and admin is alerted of success (or failure, with an error message)		
<b>Frequency of Use</b>	Whenever new users need to be added to the system (new athletes brought on, new warehouse workers hired, new admins appointed/hired)		
<b>Flow of Events</b>		<b>Actor Action</b>	<b>System Response</b>
	1.	Log into system	
	2.	Navigate to "athletes", "warehouse workers", or "admins" user page	Display page that lists all users of the corresponding type
	3.	Click "Create User" button, where User is the type of user to be created (i.e., athletes page has a "Create Athlete" button, etc)	
<b>Variations</b>	None		
<b>Exceptions</b>	None		
<b>Developer Notes</b>	None		

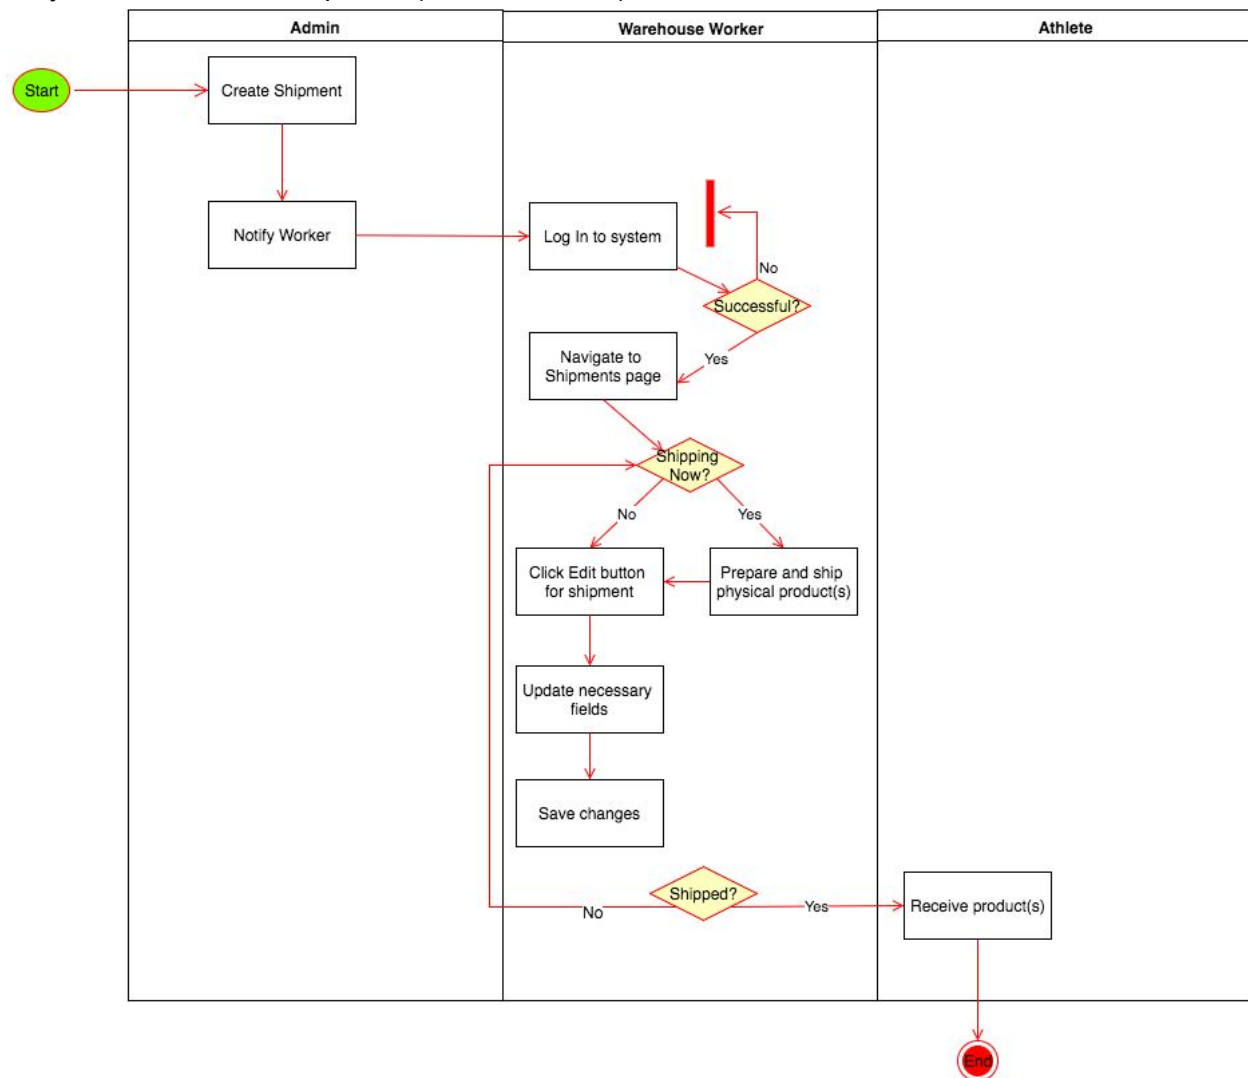

<b>Use Case ID</b>	UC-08		
<b>Use Case Name</b>	Disable Profile		
<b>Description</b>	Disable login capabilities for terminated users		
<b>Actors</b>	Admin		
<b>Pre-Conditions</b>	User profile exists and is currently active.		
<b>Post-Conditions</b>	Profile is marked as inactive, user can no longer log in.		
<b>Frequency of Use</b>	Rare - when an employee leaves the company or an athlete loses sponsorship		
<b>Flow of Events</b>		<b>Actor Action</b>	<b>System Response</b>
	1.	Log in	
	2.	Navigate to page for correct type of user (athlete, worker, or admin)	Display user page
	3.	Find needed user, click edit button	Open pop-up window with user editable fields
	4.	Update "status" field to "inactive"	
	5.	Click "save changes" button	Updates status field within database to inactive. Updates username and password to NULL values.
<b>Variations</b>	None		
<b>Exceptions</b>	None		
<b>Developer Notes</b>	None		

## Activity Diagrams

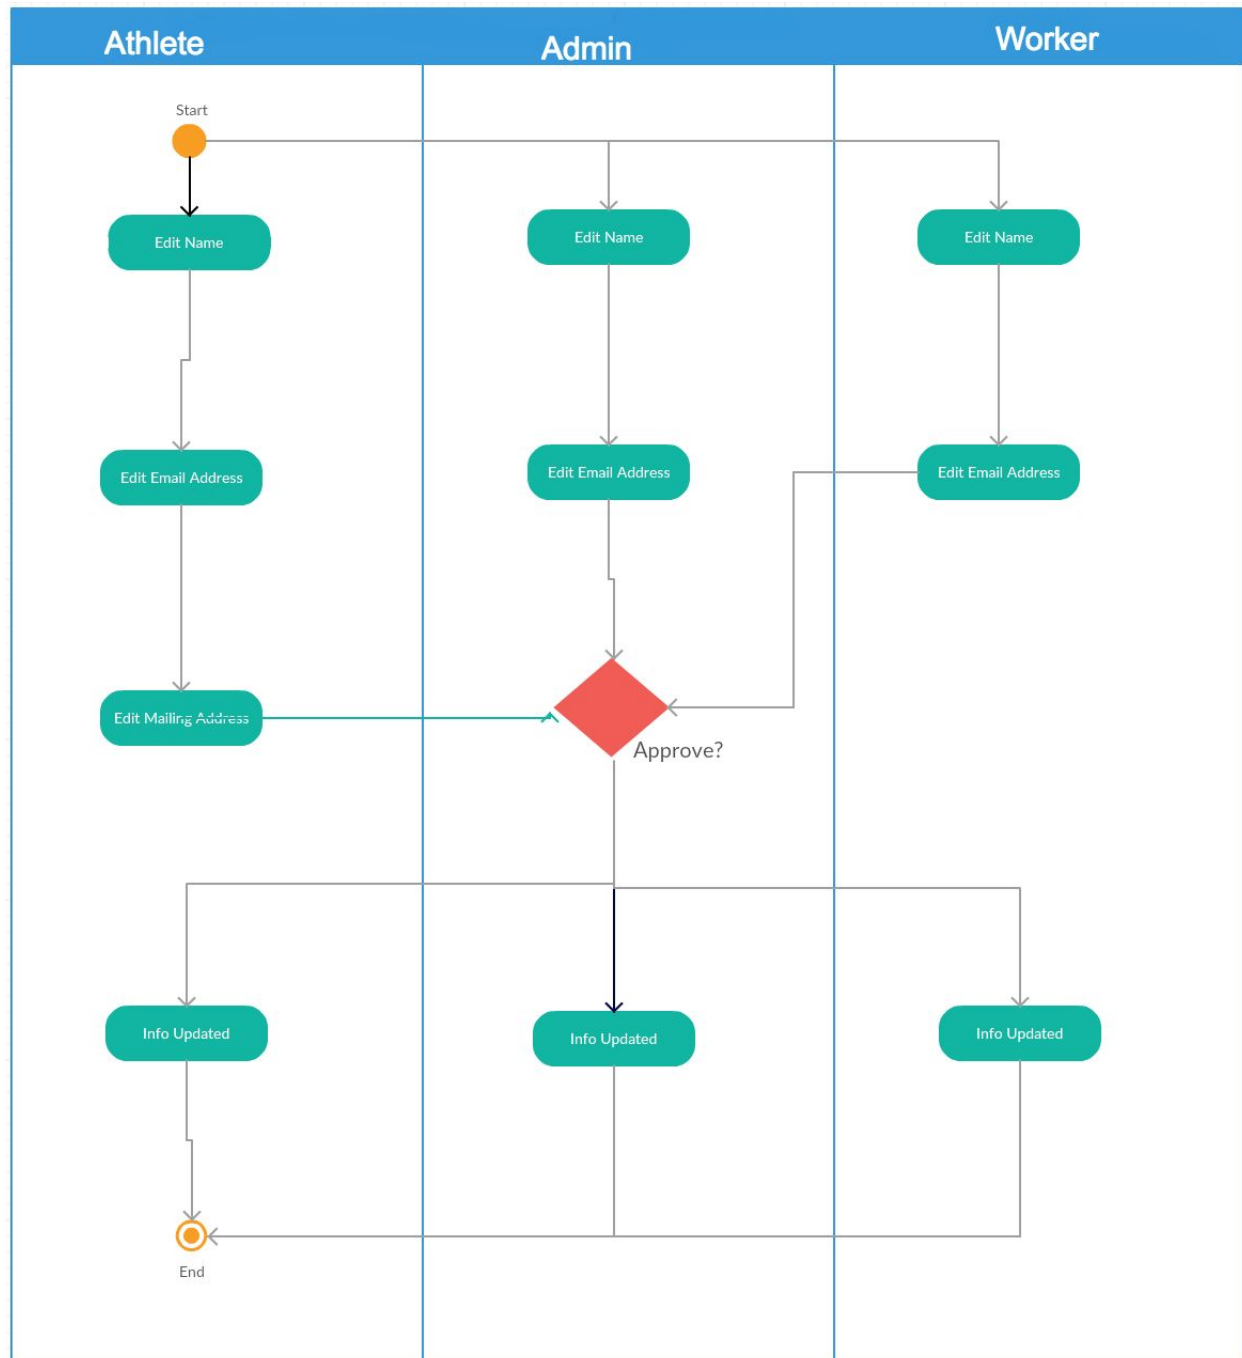

Matthew Uhlar - Ship Product For Athlete

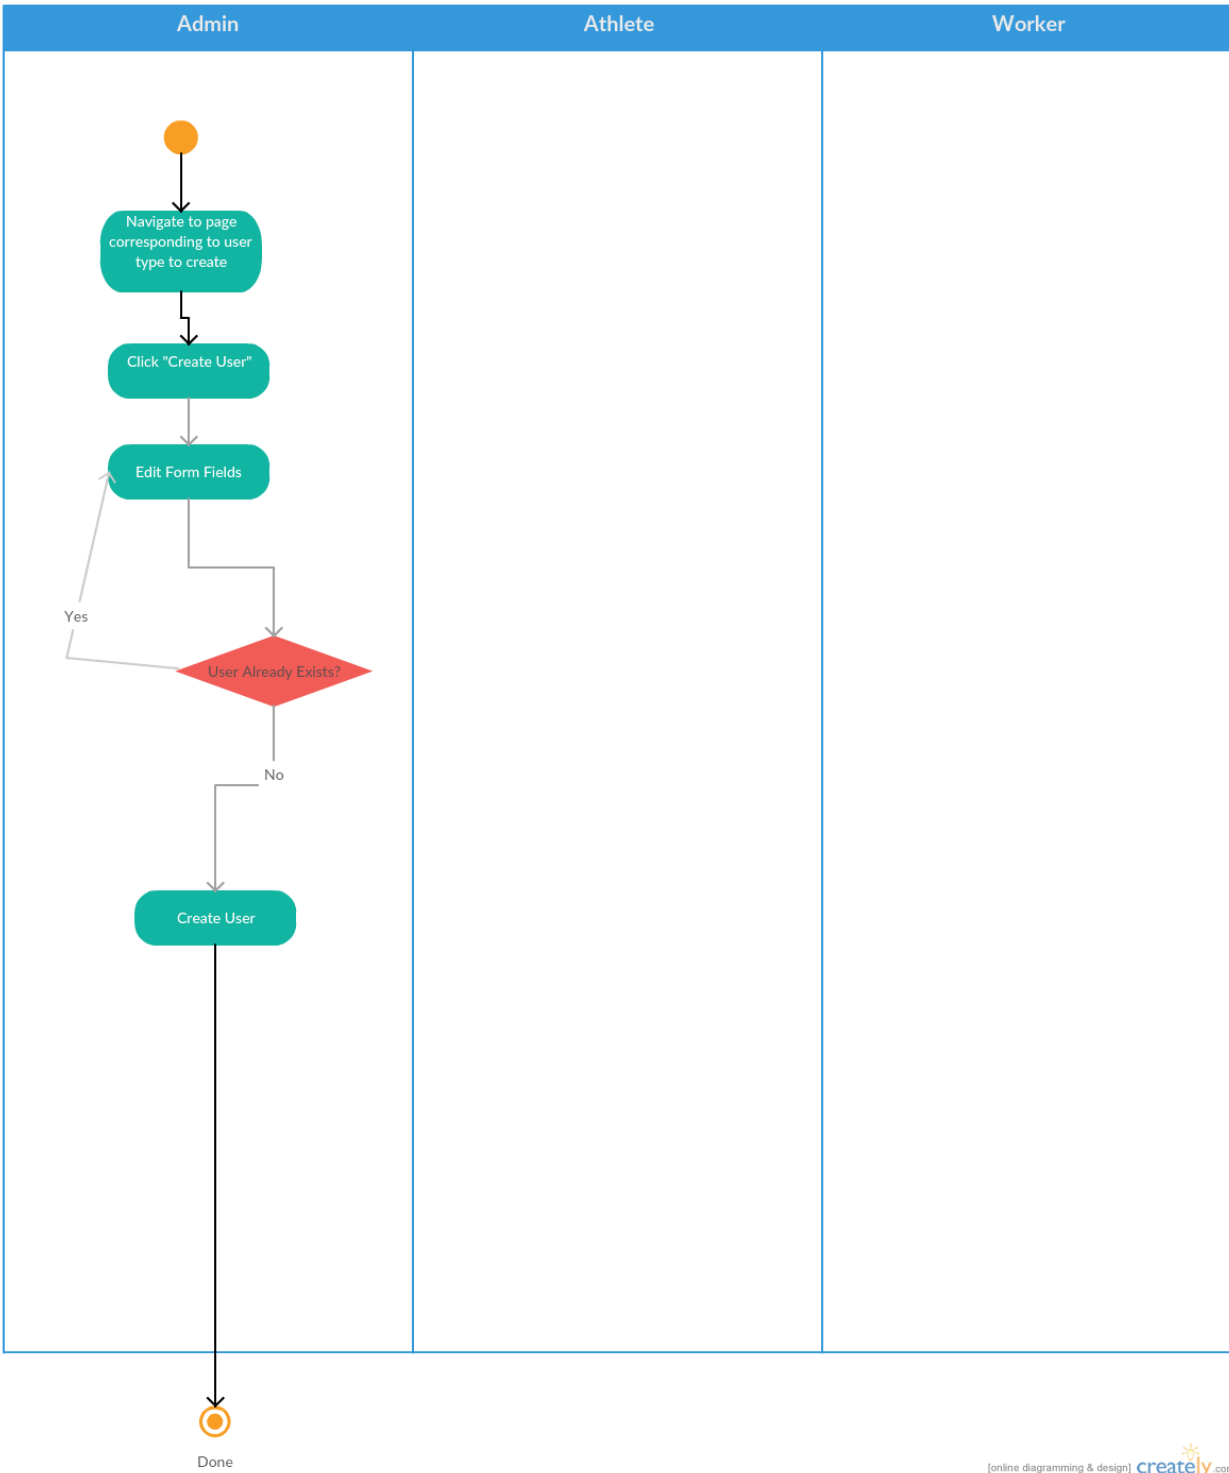

## Lucy Wilkinson - Edit Shipment (UC-06 / UR-10)

## Dmytro Ryzhkov - Edit Own Profile (UC-04)

Alex Goodwin - Create Profile (UC-07)

## Data Storage

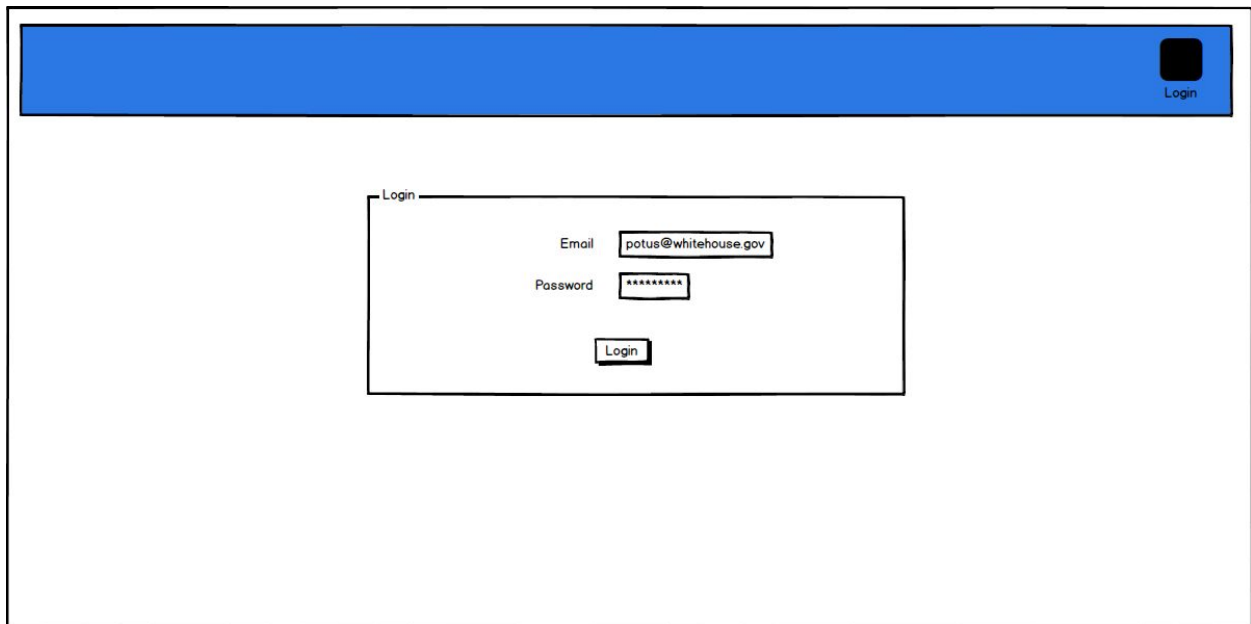

We are planning to use a relational database (mySQL) to store our data. We will have a user table with basic information and individual Admin, Athlete, and Warehouse Worker tables with

fields specific to those types of users. We will also have a table of products offered, and a table of pending/completed/cancelled shipments.

## UI Mockups

### Login Page

- Accessed as first step for any user

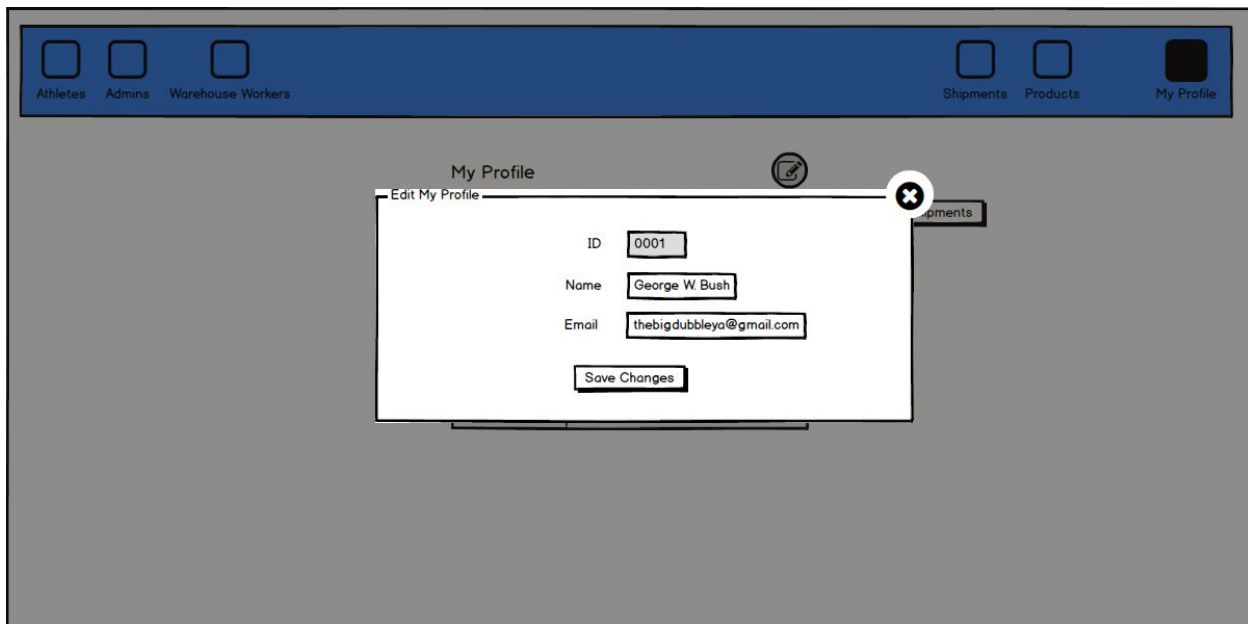

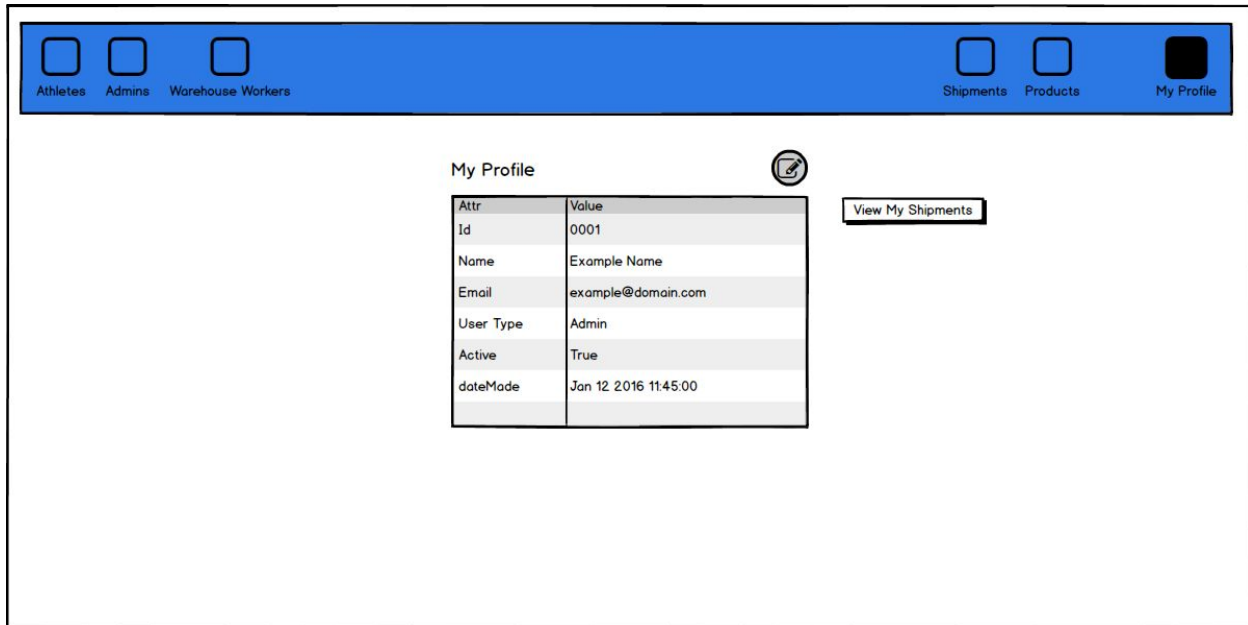

The mockup shows a web page with a blue header bar. In the top right corner of the header is a black square icon with the word "Login" below it. The main content area is white and contains a centered login form. The form is titled "Login" and has two input fields: "Email" with the value "potus@whitehouse.gov" and "Password" with the value "\*\*\*\*\*". Below the password field is a "Login" button.

### User Profile Page

- Shows information for logged-in user, contains link to edit own info
- Admins
  - Can view their information
  - Can edit their information
- Athletes
  - Can view their information
  - Can edit their information
- Warehouse Workers
  - Can view their information
  - Can edit their information

### Athletes Page

- Contains list of all athletes sponsored by the company
- Ability to filter by date and/or status
- Admins
  - Ability to view all athletes
  - Ability to create new athlete
  - Ability to edit all athletes
- Athletes
  - Ability to view only themselves
  - Ability to edit only themselves
- Warehouse Worker

- Ability to view all athletes
- Ability to create new athlete
- Ability to edit all athletes
